Education

B.S.	Geo-information science and technology	Ocean University of China	2013-2017.
M.A.	Engineering mechanics	Harbin Institute of Technology	2017-2019.
Ph.D.	Engineering mechanics	Southern University of Science and Technology	2019-now.

Publications

Ambient noise Rayleigh wave imaging in Sichuan Basin by high-modes dispersion curves.

American Geophysical Union Fall meeting 2018.(oral)

Study on the structure of Sichuan Basin by using high-order dispersion curve of background noise.

Annual meeting of Chinese Geoscience Union 2018.(poster)

Extract dispersion curve from ambient noise based on frequency domain Bessel transform.

Annual meeting of Chinese Geoscience Union 2019.(oral)

Honors

Outstanding academic dissertation		Harbin Institute of Technology	2019.6
National Scholarship	¥ 8000	Harbin Institute of Technology	2018.10
Outstanding Graduates		Ocean University of China	2017.6
National Encouragement Scholarship	¥ 5000	Ocean University of China	2016.10
National Scholarship	¥ 8000	Ocean University of China	2014.10
